

## Byrna Mission 4

The Byrna Mission 4 is a semi-automatic AR-15 style rifle and does not use any batteries or electronics. The durable magnesium receiver encloses the high-performance in-line pneumatic bolt system. The M-LOK shroud comes standard with 4 picatinny rails, integrated sling mounts, front and rear flip-up adjustable sights and vertical fore grip. The two position external safety lever engages safe or firing mode. The coupled black and orange magazines each load 18 projectiles.

### ADVANCED FEATURES:

- Fully pneumatic operation, no batteries or electronics
- Durable magnesium receiver
- AR-15 style M-LOK shroud with 4-sided picatinny rails
- 325 average FPS
- 50-60 rounds per 88g CO2 canister (up to 100 rounds at 300fps)
- Effective range: 39ft (12m) on a 6" (15cm) target and 65ft (20m) on a 18" (45cm) target
- Two position selector switch: Safe or Firing Mode
