

## BYRNA LE

The Byrna LE pull pierce technology features a completely redesigned trigger interface and valve assembly to fire .68 caliber rounds at speed of up to 340 feet per second. The new trigger design on the Byrna LE allows for a much smoother and lighter trigger pull, providing a better experience for the shooter.

### ADVANCED FEATURES:

- **Compact and lightweight**
- **No recoil**
- **340 average FPS**
- **30 - 40 rounds per 12g CO2 canister**
- **Effective range: 39ft (12m) on a 6" (15cm) target and 65ft (20m) on a 18" (45cm) target**
- **Ambidextrous safe/fire switch**
